CAREER OBJECTIVE

Data Analyst and Web Developer skilled in Power BI, SQL, Excel, Python, and Django. Experienced in data visualization, dashboards, and creating responsive, SEO web apps. Passionate about using data and technology to build impactful solutions.

EDUCATION

- **Bachelor of Computer Application (BCA):** Maa Shakumbhari University 2023 - 2026
- **Higher Secondary (12th):** Uttar Pradesh Board 2023
- **High School (10th):** CBSE Board 2021

TECHNICAL SKILLS

- **Frontend:** HTML, CSS, JavaScript (ES6+), Tailwind CSS, Responsive Design
- **Backend:** Python, REST API Development, JWT Authentication
- **Databases:** MongoDB, Mongoose, MySQL, SQL
- **Programming Languages:** Python(Pandas etc), JavaScript
- **Tools:** PowerBI, Tableau, Git, GitHub, Postman, VS Code

RELEVANT EXPERIENCE

- **Data Analytics Intern – Deloitte Australia (Virtual) Oct 2025:** Generated and upgraded interactive Tableau dashboards and analyzed 50,000+ forensic records in Excel, delivering actionable business insights that refined data-driven decision-making efficiency by 15 percent.
- **GenAI Data Analyst – Tata Group (Virtual) Oct 2025:** Applied GenAI tools and Python for exploratory data analysis and predictive modeling on financial datasets, creating an AI-driven collections strategy that enhanced repayment forecasting accuracy by 12 percent and streamlined operational performance.

PROJECTS

Mobile Sales Dashboard

- Built a Power BI dashboard analyzing mobile sales to generate actionable insights for strategy.
- **Tech Stack:** PowerBI, SQL | **GitHub:** github.com/niveshbansal07

IBM HR Attrition Dashboard

- Analyzed employee attrition patterns for HR strategy optimization.
- **Tech Stack:** PowerBI, DAX | **GitHub:** github.com/niveshbansal07

Global COVID-19 Data Dashboard

- Built a dashboard of global COVID-19 cases, deaths, tests, and vaccinations to highlight trends and insights.
- **Tech Stack:** PowerBI, Pandas | **GitHub:** github.com/niveshbansal07

Zomato Restaurant Analytics Dashboard

- Established a dashboard of restaurant ratings, prices, delivery trends, and locations to spot patterns and opportunities.
- **Tech Stack:** PowerBI, Pandas, Excel | **GitHub:** github.com/niveshbansal07

Syllabus Buddy and Syllabus Quiz Web Platforms

- Developed web platforms offering structured syllabus content, past-year questions, and AI-driven quizzes for students, fine-tuned for SEO, and improved learning outcomes.
- **Tech Stack:** HTML, CSS, JavaScript, Python | **Live Links:** [syllabus Buddy](#) | [syllabus Quiz](#)

CERTIFICATIONS

- Data Analytics – Microsoft and LinkedIn
- Data Analytics Job Simulation – Deloitte | Gen AI Data Analytics Simulation – TATA
- Data Visualization – IBM (Cognitive Class) | Excel – U demy | Python – Kaggle
